I strongly believe that mobile phones are necessary. My reasons for this belief are that these phones are convenient for business people who travel a lot, and they are handy for emergencies. To begin with, mobile phones are necessary in the case of emergencies. For instance, if you fall down a set of stairs in a building and are badly injured and can't reach a pay phone, it is handy to have one to use. Or, if your car breaks down in the middle of the night in a strange neighborhood, it would be dangerous to leave it in search of a public phone booth.

My other main reason is that mobile phones are convenient for business people. For example, if you are out of the state or even overseas and you have to contact a client to do some important work, it is useful to have one to use. By using a mobile phone, important information can be received. People can't stay in an office all day waiting for their phone to ring. Some people have to go and do jobs or they will go out of business. You can even send faxes or messages and use the internet with your mobile.

In conclusion, I believe that mobile phones have now become a necessary part of every day life. Instant communication will ensure that information can be passed on with a simple press of a button. Whether this is to do with business or personal information or emergencies, it goes to show that they are necessary in the new millennium.

10. How many reasons are used to support the writer's opinion?
- A. One reason
  - B. Two reasons
  - C. Three reasons
  - D. Four reasons
  - E. Five reasons

I strongly believe that mobile phones are necessary. My reasons for this belief are that these phones are convenient for business people who travel a lot, and they are handy for emergencies. To begin with, mobile phones are necessary in the case of emergencies. 11. Why are mobile phones very convenient for business people?
- A. They can contact clients
  - B. They can do some important works
  - C. They can receive some important information
  - D. They can send some data and surf Internet
  - E. They can run business by staying in and out office

12. What is the main idea of the second paragraph?
- A. The advantages cellular phones during the emergencies
  - B. The solution to do when your car breaks down
  - C. The danger to leave a mobile phone in the car
  - D. The differences of a mobile phone and a pay phone
  - E. The necessary equipments among neighbours

Private cars are becoming more important in our modern lives for two main reasons, poor public transport and business.

Many people in the world live in towns, villages and even cities that do not have good buses or trains. Without cars these people could not travel to work, to the shops or do many other important things. Also, in many towns and cities buses stop before midnight but in today's busy world people are busy twenty four hours a day.

The next point is that cars help the economy in two ways. Firstly, the car industry gives many people in the world jobs and helps countries to develop. Secondly, many people today need cars in their work. Doctors need to visit patients; salespeople need to visit customers and computer technicians need to visit businesses.

In conclusion, although cars can cause problems it is impossible to live without them in modern life.

14. The text mainly tells us about ....

- A. how private cars help the economy.
- B. private cars in many cities and towns.
- C. how car helps many countries to develop.
- D. the importance of cars in our modern lives.
- E. busy people who need private cars in their work.

Dear Intan

Intan, sorry I haven't written to you for so long. We moved into a new apartment last month and we've been really busy getting settled.

It's a nice apartment. It is bigger than our old one. It's big so there are a lot of rooms to work in. It has a big living room, two bedrooms and two bathrooms. Another thing I like is the kitchen.

The apartment is on a quiet street in a good neighborhood. There's also a shopping centre just down the street with a supermarket, some quite good restaurants and some stores.

We really enjoy living here. Do come over and have a look next time you are in the town. I'll wait.

Love

Shinta

17. What is the letter about?

- A. Shinta's room.
- B. Intan and Shinta's apartment
- C. Shinta's business
- D. shopping centre near Shinta's apartment
- E. Shinta's new apartment

Dear Jack,

I thought I'd drop you a line to thank you once again for a lovely holiday. We feel very relaxed after such a restful break.

However, we had a slight problem on our home way, just after saying good- bye to you all. We were just on the edge of town when Fiona remembered that she needed to buy some aspirin. We caught sight of a chemist's by the junction leading to the motorway- Brent Corner. As we were reversing the car out to leave, an old man, who'd sitting on the bench in front of the chemist's got up, lost his footing and fell over. We stopped, of course, and him helped him up. We asked him if he'd hurt himself and he replied he was all right. We notice that he'd cut his forehead. As soon as he took a few steps, he was very unsteady so we said we'd take him to hospital. After three hours the doctor arrived, asked how it had happened, gave an old man a check up and said he wasn't injured but they'd keep him there for the night just to be sure. It was getting late so we told a nurse to get in touch with us if there were any problem left.

But yesterday, while I was at work, Fiona got a phone from the old man's son-in-law. he explained that the old man was still in hospital and not al all well. He said that he thought the old man had been knocked down by a car and what's worse his wallet was missing. Fiona asked him if he was suggesting that I'd actually knocked the old man down. He replied that he was making any accusation at the moment, but that it was an offence not to have given an official statement to the police. He said they might take us to court.

Of course we immediately rang the hospital and the doctor said he couldn't be sure but the old man might have been hit by slow moving car. I know I didn't run him down. But we've got no evidence. So I was wondering if you could go over the shops, and aske if there any witnesses. Try the chemist's in particular. Let me know what you find. I'd really be grateful if you could help.

Give my love to Mary and the children.  
Best wishes,

Gerry

23. What is the text about?

- A. A car accident
- B. A missing wallet
- C. Gerry and an old man
- D. Gerry and Fiona's problem
- E. A casualty of a car accident

A lot of Indonesian people underestimate tempeh. Even the Indonesian children take more pride in fast food ala America. In fact, tempeh is a popular food among people in America, Japan, China. Moreover in these countries, tempeh is patented food product. They find that tempeh is a food rich in nutrients, especially protein—one of nutrients essential to develop the brain.

In addition to protein for the brain, tempeh also contains isoflavors, an active ingredient that lowers blood cholesterol. It is thus no wonder that heart disease is rare among people who eat tempeh regularly.

Even the American Heart Association (AHA) has told the public, especially those with high cholesterol, to eat tempeh and other foods or drinks made from soybeans.

Meanwhile, laboratory test in Singapore on the health benefits of soybean-based food showed that consuming tempeh regularly could increase the body immunity against the disease and illness, soften the skin, and make the face radiant.

Let's eat tempeh for our health and brain. With tempeh, we will build the Indonesian nation.

27. Which one doesn't belong to the advantages of eating tempeh?

- A. It softens the skin.

A lot of Indonesian people underestimate tempeh. Even the Indonesian children take more pride in fast food ala America. In fact, tempeh is a popular food among people in America, Japan, China. Moreover in these countries, tempeh is patented food product. They find that tempeh is a food rich in nutrients, especially protein—one of nutrients essential to develop the brain.

In addition to protein for the brain, tempeh also contains isoflavors, an active ingredient that lowers blood cholesterol. It is thus no wonder that heart disease is rare among people who eat tempeh regularly.

Even the American Heart Association (AHA) has told the public, especially those with high cholesterol, to eat tempeh and other foods or drinks made from soybeans.

Meanwhile, laboratory test in Singapore on the health benefits of soybean-based food showed that consuming tempeh regularly could increase the body immunity against the disease and illness, soften the skin, and make the face radiant.

Let's eat tempeh for our health and brain. With tempeh, we will build the Indonesian nation.

Dear Frodi,

It was a real sorrow that I heard this morning of your great loss. I knew your mother was ill, for your brother told me several weeks ago. However, as he at that time did not seem to think the illness was very serious, the news of your mother's death came to me as a shock. You have my sincere and heartfelt sympathy, my dear fellow, in your sorrow. I know you will feel it deeply, for you always thought so much of your mother and loved her so truly. I feel it also as a personal loss to myself, for your mother was always very kind to me. Her death must be a terrible grief to your father, too. Please assure him of my sincere sympathy.

Words, I know, are poor comforters. "The heart knows its own sorrow", and in such sorrows we are always alone. However, it is not mere words when I say that I feel with you in your sorrow.

Your sincere friend,  
Jean
